THE SPRING/SUMMER COLLECTION 2023

Often the strongest memories are awakened by sensory experiences. A touch, a smell, a sound, a taste, or a color that will instantly take us back to our childhood and reminds us of family, motherly love, playful times at the beach or the feeling of the warm sand underneath your feet and the taste of the very first strawberries in the summer. That's Mines new spring/summer collection embraces the feeling of childhood. It celebrates the happy and playful summer memories that shape us as humans. This resonates with our ambitions to create interior, toys, clothes, and nursing products that will become a part of your and your children's life. Our biggest wish is to design and create products that will make your children think back on their childhood memories.

Our collections are made with the intent to create a calm, aesthetic, and timeless style, that will delight parents and allow children to feel free, happy, and playful. At That's Mine, we consistently choose sustainable production and seek our materials and fabrics with the highest quality and best performance, so our timeless products can be passed on again and again. At That's Mine, we are inspired by beautiful creativity, children's fantasy, and the wild beautiful nature. As always, our root in Scandinavian nature affects how we approach our design and products. The color palette is grounded by calm and Nordic colors to express the natural Scandinavian sensibility such as Skywriting, Rib Slate, Tea, and Shadow Grey. With a link to nature comes a variety of shades such as moonstruck, birch, desert taupe and pumice stone.

The new SS23 prints are kept in a childish and playful feeling – a perfect addition complimenting the exciting colors and prints. The prints are inspired by the Nordic nature: The wild bunnies playing around in the blooming summer field. The small wild strawberries which are to find in the edge of the forest. The playful bunnies and bears prints mark the collection with the feeling of a childish and lively nature. Ceté Sky brings

dreamy and childish memories in a playing and calm way. All our prints are drawn by hand and made with heart and love for playful and beautiful illustrations. The aesthetic and timeless stripes mixed with the new prints brings the clothing collection soft and calm vibes. With the new collection we are welcoming some new products in our categories, as playtime and outdoor. The new wooden and learning toys in the playtime category consists of different shapes and sizes, which is perfect for developing the child's motor skills. Let the small child use its senses with our brand-new selection of activity toys in beautiful calm colors or let the bigger child go exploring the balance wooden toys, where only the imagination sets the limits. We are also welcoming some new soft organic fabrics, focusing on better conditions for nature and you child.

The clothing collection is also growing for this season. Feel the light- and softness of the organic fabrics in new beautiful and cute styles that will bring comfort to the warm summer days. The new prints and stripes give the clothes collection a perfect and calm look. Mix the printed baby suits with one of the striped summer hats or make a calm look by matching the prints. Some of our old favorites are also getting new life. The new light brown mélange is making the prints and colors fading nicely and gives the collection a soft and sensible look.

For the second time we are introducing our swimwear collection with new prints, styles, and fabric. All styles are made with a UV50 sun protective and recycled polyester fabric. The glittery swimwear is soft and shines beautiful in the summer sun, which gives the swimwear an aesthetic and girlish touch.

The world is ours for taking. We are friends of the earth, the wild nature, of play, of love. Go celebrate the playfulness of nature and make the summer memories count.

THE STORK

Best known is the myth of the stork as the delivery of the babies.

The legend originates from an old Nordic tradition. In many parts of Denmark, it is a tradition to put a stork figure in the entrance of the home when there is arrived a newborn. The stork comes with two colored cloths which can easily be put into the stork's beak to indicate the gender of the baby.

SWIMWEAR

HOW TO TAKE CARE OF YOUR NEW SWIM

Hand wash in cold water and avoid
washing in machine whenever possible

Pat your suit with a towel to
remove excess water

Allow your suit to dry in the shade rather
than sun to prevent sun-bleaching

All styles are made with a UV50 sun
protective and recycled polyester fabric
